**CARTA-0371-2019-MINAGRI-SENASA-DSV**

Mr.

**VOLODYMYR LAPA**

Head

State Service of Ukraine on Food Safety and Consumer Protection - SSUFSCP

Ukraine.-

Subject : Phytosanitary Import Requirements of beans, flax and mustard.

Reference : Carta N° 22.1.6/2285 (10.04.2019).

I am pleased to write you in relation to the importation of bean, flax and mustard grain from Ukraine to Peru.

In this regard, I must inform you that the phytosanitary requirements for the import of these grains from your country are not established, for this reason, you cannot export them from your country.

Likewise, I must inform you that in order to establish phytosanitary requirements for the importation of a plant product, the SENASA carries out the Pest Risk Analysis (Attached questionnaire) of the product and the result of which the specific phytosanitary measures related to the shipment are established by regulation.

Finally, I must indicate to you that as part of our import procedure, all interested to be able to mobilize a plant product from another country, must have the Phytosanitary Import Permit, which is the official document issued by SENASA that authorizes the import of a plant product and in which the phytosanitary requirements are recorded.

Sincerely yours

MINISTERIO DE AGRICULTURA Y RIEGO  
SERVICIO NACIONAL DE SANIDAD AGRARIA  
DIRECCIÓN DE SANIDAD VEGETAL

**Ing. Moisés E. Pacheco Enciso**
